***Message***

It is a matter of pride and contentment that the **SD-Technocrates** is organizing its Second International Conference on “**Emerging Technologies in Engineering, Biomedical, Management and Science** “ on 5-6 Nov 2016 in Jodhpur, Rajasthan , with the collaboration of **International Journal For Technological Research In Engineering [IJTRE]** and **International Journal of Advance Research in Science and Engineering [IJARSE]** . This conference will act as a common platform where academic scientists, leading engineers, industry researchers and scholars will share their experiences and research results and come with fruitful solutions for academicians and industrial world. An overwhelming response has been received from researchers in various fields. It is hoped that researchers and delegates will be benefitted by the deliberations in the conference. I wish all the delegates a meaningful participation and comfortable stay.

*Message*

It gives me immense pleasure to extend my warm welcome to all the delegates of the International Conference **SD Technocrates** organizing its Second International Conference on “**Emerging Technologies in Engineering, Biomedical, Management and Science** “ on 5-6 Nov 2016 in Jodhpur, Rajasthan , with the collaboration of **International Journal For Technological Research In Engineering [IJTRE]** and **International Journal of Advance Research in Science and Engineering [IJARSE]** . I compliment the team for their immense efforts to create this unique opportunity of bringing a galaxy of experts from various streams of engineering. The topics stated are wisely chosen and will certainly provide an excellent opportunity to the young enquiring minds. It is not merely presentation of the research findings culminated over the year but it is also a forum where the members brainstorm about the future goals and directions. I am sure the delegates will utilize this opportunity to their best. I convey my greetings and best wishes for the grand success of the event.
